

FOR IMMEDIATE RELEASE

New Uvex Stealth® Goggle Retainer for Hard Hats Delivers Optimum Protection and Comfortable Fit

Best-selling Safety Goggle Attaches Flawlessly to Hard Hats for Worry-free Combination Use

SMITHFIELD, R.I. — September 14, 2011 — Honeywell Safety Products (HSP), a global leader in personal protective equipment (PPE), today introduced the Uvex Stealth Goggle Retainer for hard hats. Designed to attach flawlessly to most hard hats, the goggle retainer helps ensure workers' eyes are protected by creating a proper, gap-free seal around the eyes. With its easy-to-use design and high level of adjustability, the Uvex Stealth Goggle Retainer enables workers to achieve a comfortable, secure fit whenever goggles and hard hats are required in combination. When not in use, Uvex Stealth® goggles are held securely to the hard hat, keeping them close at hand and further improving worker safety.

"The Uvex Stealth Goggle Retainer simplifies combination use among workers, which has proven challenging in the past. Now workers can focus on their jobs, knowing their goggles are always close at hand and a proper, comfortable fit is quick and easy. That means improved compliance and a safer workforce," said Kevin Beckerdite, product manager for eye and face protection products for Honeywell Safety Products. "We are pleased to deliver this innovative solution which allows workers to experience the comfort and safety of North America's best-selling goggle even while wearing a hard hat—and contributes to an organization's overall culture of safety."

Ideally suited for use in the oil, gas and chemical manufacturing industries as well as construction, the goggle retainer features innovations to address safety, comfort and value. Its neoprene straps are easy to adjust—even while worn—to quickly provide a safe, secure and comfortable fit. The retainer's durable materials resist chemical and ultraviolet degradation for long-lasting wear. The accessory is available in two models to fit standard, cap-style hard hats and full-brim hard hats.

The Uvex Stealth Goggle Retainer is available now through major safety equipment distributors in the U.S. and Canada or by contacting the Honeywell customer care department directly at 800-682-0839. More information about the complete family of Uvex® safety eyewear is available at www.uvex.us.

About Uvex
